AI-Native Full-Stack Marketing Manager

B2B SaaS | Demand Generation | SEO | Paid Acquisition | Content Systems | Marketing Automation

SUMMARY

AI-native full-stack marketing professional with 9+ years of experience building and operating end-to-end marketing systems for B2B SaaS companies. Having honed the foundational marketing skills and strategies long before the AI-era, I operate as a one-person marketing team across acquisition, SEO, content, paid media, lifecycle marketing, conversion optimization, and website management.

Combining performance marketing expertise with strong technical and analytical capabilities to build scalable growth systems across the full funnel. Recently built and deployed AI-assisted marketing workflow applications covering ICP analysis, SEO strategy generation, and multi-channel content operations using Streamlit and Groq LLM APIs.

Experienced in managing long sales cycle B2B environments with strong focus on pipeline quality, conversion efficiency, messaging alignment, and revenue impact.
